FORTRON

OUR BRAND IS OUR DNA

FORCE + ELECTRON

We are FORTRON, the harmonizing union of Force and technology represented by the Electron, an invisible particle responsible for the effects of electrical and thermal conductivity in materials.

Through our solutions, we seek the development and excellence of agriculture and all agroecosystems.

Since our inception, we have been at the forefront of this market, developing innovative solutions in precision agriculture, geopositioning, digital farming, and spare parts. With products designed for planting, spraying and harvesting, we strengthen our commitment and dedication to our costumers,

suppliers and employees, while striving for an ethical and transparent relationship with them.

We use our expertise to promote the best experience between farmers and technology and aim to create a partnership that is rich in opportunities and focuses on profitability, efficiency and social development, considering that agriculture is one of the most important pillars of global food security.

FARMING TECHNOLOGY

OUR PURPOSES

- Bringing innovative solutions to all food-producing regions.
- Strengthening partnerships and expanding our brand.
- Always striving for excellence in our solutions.
- Offering the best solution for each customer.
- Ensuring a culture based on justice, respect for all, and meritocracy.

Our company uses 100% renewable energy.

OUR HISTORY

From the start, FORTRON has been synonymous with expertise, integrity, and responsibility in product development and service providing to its customers.

With highly skilled professionals and extensive experience, we work to ensure that farmers achieve the best results, benefiting not only themselves but also society as a whole.

Building and maintaining healthy relationships with our customers is essential, as it is through these that we gain knowledge, join our efforts, and grow in search for new purposes and challenges.

FORTRON MODULE FOR ISOBUS DISPLAYS

COMPATIBLE WITH DIGITAL
AGRICULTURE PLATFORMS

JOHN DEERE
OPERATIONS CENTER

FULL CONTROL OF SUPPLIES

MONITORS UP TO 72 ROWS OF PLANTING
+ IN-FURROW INOCULANT SPRAYER

PRIMARY BENEFITS OF THE FORTRON MODULE FOR ISOBUS DISPLAYS

MONITORING

- Monitors up to 72 planting and fertilizer rows
- Variation Coefficient (planting quality)
- Compatible with Auteq and Dickey John monitoring systems

APPLICATION

- Fertilizer application rate
- Real rate and automatic rate for liquid application
- Real rate of seed application
- Capacity for simultaneous use of three products

SECTIONS

- 16 seed and fertilizer application sections
- 04 furrow application sections
- Automatic section control
- Manual section control

TECHNICAL SPECIFICATIONS

- 3 CANbus ports
- 1 RS-232 port
- 1 RS-485 port
- Power supply voltage: 10V - 18V

COMPATIBLE WITH DIGITAL AGRICULTURE SYSTEMS

WI-FI AND BLUETOOTH
CONNECTION

MEMORY CARD FOR
DATA STORAGE

REMOTE UPDATES

AUTOMATIC RATE

MAINTAINS THE TARGET SPRAY VOLUME PER AREA, REGARDLESS OF SPEED*

*Optional automatic rate / Consult operational limits

F-15

ISOBUS

SPRAYER INTEGRATED WITH PLANTING MONITOR

AVAILABLE WITH ELECTRIC OR HYDRAULIC PUMP

ALLOWS TANDEM ASSEMBLY WITH UP TO 4 SPRAYERS

HYDRAULIC SYSTEM

- Comet BP75 Pump 70 l/min
- Hydraulic Application System
- Available in 400, 600, 850, and 1200-liter furrow sprayers
- Automatic application rate control (optional)
- Up to 4 section shut-off (optional)
- Geoline controls

ELECTRIC SYSTEM

- 12V Pump, Flow Rate of 20 l/min
- Electric Application System
- Available in 400, 600, and 850-liter furrow sprayers
- Two pumps (application/agitation)

AUTOMATIC OR MANUAL ACTIVATION APPLICATION

THERMAL PROTECTION, SPRAY AT OPTIMAL TEMPERATURE

AGITATION BY TURBULENCE

SPRAY TEMPERATURE SENSOR

CLEAN WATER TANK FOR SYSTEM CLEANING

ELECTRONIC LEVEL BAR

SOLID STREAM SPRAY NOZZLES MADE OF TECHNICAL CERAMIC (99% ALUMINA)

WITH DRIPLESS NOZZLE

FORTRON

F15 PLANTING MONITOR

SMART PLANTING

With just a few clicks, access key planting information such as seed population per meter per row, implement speed, and more.

INSTALL ON ANY PLANTER

MONITOR UP TO 60 ROWS

TOUCH SCREEN DISPLAY WITH BACKLIGHT

GPS + GLONASS

WATER AND DUST RESISTANT

CANBUS

DEDICATED TECHNOLOGY

COMPATIBLE WITH OPTIMUSJET SPRAYER

The FORTRON F-15 planting monitor provides all the necessary features for accurate planting.

Technologies such as satellite-based speed sensor, glass lens sensor, CANbus communication network, audible alert and backlit LCD touch display ensure robustness and simplicity in planting.

With an easy-to-install GPS + Glonass module, the F-15 monitor ensures precision in calculating seed population, as well as providing an area meter and planting speed. It offers all the operation data and georeferencing through a CANbus port, allowing connectivity with digital agriculture technologies.

TECHNICAL SPECIFICATIONS

- Automatic sensors recognition
- GPS + Glonass satellite-based speed sensor
- Compatible with Dickey John and Auteq sensors
- User-friendly display
- Audible and visual alarms
- Adjustable sound signal volume

COMPATIBLE WITH

CLIMATE
FIELDVIEW

Climate FieldView™ it's Bayer's digital agriculture platform that supports farmers through innovative services and solutions based on data science, helping them manage their operations more efficiently throughout the entire crop cycle, from planting to harvesting.

Fortron and Climate FieldView are farmers partners, quickly providing data from your farm, helping you make the best management and purchasing decisions, further optimizing results.

AVAILABLE INFORMATION TO THE OPERATOR

- Average seeds per meter per row
- Planting speed
- Alert for rows without seed drop
- Alert for rows above or below the defined average
- Alert for planting speed above the limit
- Planted area
- Working hours

AKK25356FT

Seed sensor compatible with Auteq MPA2500 and FORTRON F-15 monitors.

- Robust with exclusive glass lens
- 4-way TE Deutsch connector
- 18mm viewer with high-sensitivity infrared photodiode
- Supply voltage: 7 to 16 V
- Power consumption: 30mA
- Signal type: CANbus 2.0B

452440891-2FT

Seed sensor compatible with Dickey John monitor, Trimble GPS Field-IQ, Precision Planting, and FORTRON F-15 with a 90cm cable.

- Robust with exclusive glass lens
- 3-way Delphi Weather Pack connector
- 18mm viewer with high-sensitivity infrared photodiode
- Supply voltage: 7 to 16 Volts
- Power consumption: 30mA
- Signal type: square wave pulse

FT5218

- GNSS speed sensor
- Output in high-precision pulsed signal
- Compatible with equipment that accepts pulsed and radar inputs
- Fast convergence
- High sensitivity
- GNSS frequency - 10Hz
- Output signal - NPN square wave pulse, 60 pulses/min.
- Operating current - 100mA
- Startup time - less than 60s
- Minimum operating speed - 1kph (0,62 mph).

404831A1FT

Sensor de sementes compatível com plantadeiras Case e New Holland

- Robust with exclusive glass lens
- 3-way Delphi Weather Pack connector
- 23mm viewer with high-sensitivity infrared photodiode
- Supply voltage: 7 to 16 Volts
- Power consumption: 30mA
- Signal type: square wave pulse

467701002FT-B

Mini seed sensor compatible with Dickey John, Trimble Field-IQ, Precision Planting, and FORTRON F-15 monitors.

AA58295-2FT

Seed sensor compatible with Dickey John, Trimble Field-IQ, Precision Planting, and FORTRON F-15 monitors with a 15cm cable.

FT4109-S2

Sim seed sensor compatible with Dickey John, Trimble Field-IQ, Precision Planting, and FORTRON F-15 monitors with a 90cm cable.

FTSS02

Seed sensor compatible with Agral AGeconomy, AG8000, and AG8100 monitors.

AAX10030FT

GPS + Glonass antenna compatible with Auteq MPA2500 and FORTRON F-15 monitors.

AA47936FT

Inductive wheel speed sensor for planters (M30).

AA54557FT

Incremental encoder rotation sensor, 360 pulses per revolution.

AA67780FT

Seed tube made of acrylic with sealing ring.

FT2748

Seed and fertilizer module for planting monitor.

RE261354FT

John Deere planter lift height sensor.

A84774FT-10

Silicone sealing ring for acrylic seed tube - 10 pieces.

AX10115FT

CAN bus termination for Auteq MPA2500 and FORTRON F-15 monitors.

AAX10031FT

Power harness for AUTEQ MPA2500 monitor.

AAX10032FT

CAN bus harness for AUTEQ MPA2500 tractor monitor.

AAX10035FT

CAN bus extension harness for AUTEQ MPA2500 monitor.

AAX10036FT

CAN bus harness for AUTEQ MPA2500 planter monitor.

AKK33623FT

Short-line clutch harness for DB planters.

AKK33624FT

Long-line clutch harness for DB planters.

AKK12234FT

Y CAN harness for planter with AUTEQ MPA2500 monitor.

FT2243

Harness for 7 to 18-row planters.

FT4875

Power harness for FORTRON F-15 monitor.

FT55798

Monitor harness for CCS planters.

AAX10196FT

Harness for John Deere planter row marker.

FT993959

ISOBUS harness.

CLIMATE

FIELDVIEW HARNESSES

FT7119

FieldView ISO CNH (Pro700/Intelliview) harness.

FT8376

FieldView harness for John Deere 6J tractor.

FT1202

FieldView Auteq harness for John Deere and AGCO.

FT3327

FieldView Trimble TMX-2050 harness without extension.

**WE MANUFACTURE
CUSTOM
AGRICULTURAL
WIRING HARNESSES**

FT087076

Rapid Check 1"
Flow rate: 10-100 l/min
Compatible with Jacto, Stara,
Kuhn, Montana, and Jan.

FT79204172

Rapid Check 1 1/4"
Flow rate: 17-170 l/min
Compatible with Jacto
and Stara.

FT499137

Rapid Check 1 1/2"
Flow rate: 35-350 l/min
Compatible with Jacto.

FT79234071

Rapid Check 1 1/2"
Flow rate: 55-550 l/min
Compatible with Stara 3.0
and 4.0 sprayers.

FT305056

Rapid Check 1 1/2"
Flow rate: 35-350 l/min
Compatible with John Deere.

FT87999

Flow meter sensor for
Jacto sprayers.

78104561FT

Flow meter sensor for
Stara, Kuhn, and Montana
sprayers.

FT750364

Jacto segment sensor.

FT843888

Jacto wheel sensor.

FT73105590

Hall effect rotation
sensor for discs.

FT73104992

Stara magnetic sensor.

FT73104045

FT73104063

M12 inductive sensor.

FT4508-A

connector
repair kit.

FT4508-K

2-way Deutsch
connector
repair kit.

FT4508-L

SB50 Connector

AKK14217FT

Locking and sealing ring kit
for AUTEQ sensor.

FT2286

Seed conductor
cleaning brush.

FT990546

Refueling kit for agricultural tanks.

FT8147002

Cap and strainer for 400L, 600L, and 800L tanks.

FT8384404

10 bar pressure regulator valve.

FT8388007

Agitation valve.

FT8384037

20 bar pressure regulator valve.

FT6121000

Comet BP75 pump.

FT605075

Pressure pump 5.0 gpm 12V 5Is.

FT0500750

Hydraulic motor.

FT5011022

Pump coupling.

FT990555

Comet BP75 pump repair kit.

FT8095001

100 l/min suction filter with a 50 mesh filter element.

FT3000007

Suction filter with valve, 1 1/4" threaded outlets, capacity of 80 l/min. 50 mesh filter element.

FT3000069

Long cup line filter, 150 l/min flow rate. 80 mesh filter element.

FT3000070

Flanged line filter, 15 bar pressure rating.

FT9905102

Side-mounted furrow sprayer support for AGCO Momentum planters.

FT9905103

Support for furrow sprayer in corbel or table format.

FT5849553

Pressure gauge.

FT0847-X

Quick couplings. Please contact us for more information.

FT30J5B

Nozzle holder (nozzle not included).

FT1001002-XX

Solid stream spray nozzles made of technical ceramic (99% alumina). Please contact us for more information.

FT3000089

Main anti-drip nozzle for the line.

FT4002146

0.5 bar anti-drip nozzle.

FORTRON GNSS RECEIVER KIT SERIAL/CAN

FT87491753

TECHNICAL SPECIFICATIONS

- Compatible with Intelliview 3 and 4, Pro600 and Pro700, C3000, GS3, GS4, and others
- Output: CANbus/RS-232
- Communication Protocols: J1939, NMEA2000, NMEA0183
- Receiver Type: GPS+GLONASS L1
- Operating Frequency: 10Hz
- Connectivity: WIFI and Bluetooth
- Operating Voltage: 10~18 Volts
- Current Consumption: 150 mA
- Positioning Accuracy: 1.5 meters CEP
- Convergence Time: less than 40 seconds
- External Application: water and dust resistant
- Compatible with digital agriculture systems

EQUIVALENTS:

Garmin 062 / NH062 / AG162
